-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species-I: Figures 1-3; Sheet of material having a graphic image thereon.

Species-II: Figures 4-8; Sheet of material having a graphic image thereon and having a bonding material disposed along one edge; a conical and a cylindrical decorative cover formed of the sheet of material.

Species-III: Figures 9-12; Floral sleeve having a graphic image formed thereon, with and without a floral grouping disposed therein, with and without a cinching member thereon.

Species-IV: Figures 13-16; Sheets of material in pad form having a graphic image disposed thereon, and method of wrapping a sheet of material about a flower pot, having a floral grouping disposed therein.

Art Unit: 3644

Species-V: Figures 17-20; Sheets of material in pad form having a graphic image disposed thereon, a detachable upper portion and a bonding material disposed along one edge, and method of wrapping a sheet of material about a flower pot and floral grouping disposed therein.

Species-VI: Figures 21-23; Floral sleeve having a graphic image formed thereon and multiple detaching elements disposed thereon, and having a pot containing a floral grouping disposed therein.

Species-VII: Figures 24-25; Preformed pot cover having a graphic image disposed thereon with and without a pot containing a floral grouping disposed therein the cover.

Species VIII: Figures 26-27; Sheet of material having a graphic image disposed thereon and preformed pot cover.

Species IX: Figures 28-30; Preformed flower pot cover having a graphic image disposed thereon, with and without an integral skirt portion and further with a detachable skirt and upper portion.

Art Unit: 3644

Species-X: Figures 31-34; Wrapper, sleeves and decorative cover having a graphic image disposed thereon with an item disposed therein or proximate the wrapper, sleeves and decorative cover.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

Applicant is advised that an election of the aforementioned species may further result in a requirement to elect a subspecies of the elected group if applicable, in light of the 11-independent claims originally presented.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141.

Art Unit: 3644

If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Francis T. Palo whose telephone number is 703-305-5595. The examiner can normally be reached on M-Tu.,Th.-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 703-305-7421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
